Superior Mobility Series Put the Power in Your Hands

Supercharged performance: Powered by a Super Hybrid Engine-boosted standard voltage Intel® processor. Super long battery life: Super Hybrid Engine extends battery life to 11.5 hours for all-day, on-the-go computing. Super slim design with superlative audio capabilities: Delivers high fidelity sound through Altec Lansing® speakers despite coming in at under an inch thick.
Propel your productivity and entertainment to a new level with the ASUS superior mobility series —an ultra-slim and energy-efficient powerhouse that accelerates your daily computing tasks without weighing you down. When it comes to supreme speed and sleek style, nothing else comes close.

Super Long Battery Life
Super Hybrid Engine intelligently cuts back on power when the notebook is performing less demanding tasks That's why the the notebook stays running for an incredible 11.5 hours!

UnLimited Portability: Stylishly Thin and Less than 1-inch Thick Profile

ASUS UL and U series is shrouded in a robust brushed aluminum lid which not only looks magnificent, but also helps in maintaining its stylish exterior day after day. OR Feast your eyes upon the ASUS UL and U series, with a profile measuring less than 1-inch. Its aluminum alloy structure accords you with style and grace as you make your way through the day.
 It fits effortlessly into your day bag, haversack or briefcase, and with the brushed aluminum design, it shrugs off scratches and abrasions, protecting its gorgeous exterior.

Multimedia Series "Hear the Power Feel the Power"

Elevate your aural experience with SonicMaster technology, developed with the experience of Bang & Olufsen ICEpower
Enhance your visual enjoyment with Video Magic Technology
Enjoy even more awesome power with the latest Intel Core i3/i5 processors
Experience high transfer speeds with USB 3.0
Excellent power efficiency with NVIDIA Optimus™ technology - great performance, great battery life.

Superior computing performance
With all new Intel Core i CPU inside, the N Series has the power and seamless capabilities to achieve and enjoy more with great power efficiency and a smooth user experience

Enjoy powerful audio entertainment through SonicMaster technology
ASUS exclusive SonicMaster features technology approved and co-developed by world-famous Bang & Olufsen ICEpower.
No more tinny notebook audio and suffering from noise distortion – welcome to an era of true hi-fi on PC.

Enjoy and work longer
N Series notebooks feature powerful yet efficient graphics solutions, with the mobile implementation of NVIDIA Optimus switching technology on select models. This allows for real time alernating between integrated and discrete graphics to achieve the right amount of energy consumption for the task for superior performance and longer battery.

ASUS Video Magic Technology boosts your graphic computing power
Multimedia becomes complete with Video Magic image enhancement, boosting content to full, 72 frame 1080p HD and optimizing colors for vivid effect. GPU processing speeds up computing for better multimedia multitasking, plus every panel comes back with our 100% zero-bright-dot guarantee.

USB3.0 10 times faster
Now included is USB 3.0 for up to ten times the speed of USB 2.0, so all your files and content can be handled and backed up expediently. Say goodbye to long frustrating waits, even a 25GB Blu-ray movie takes a mere 70 seconds to process.

Gaming Powerhouse Series Powering a New Reality

ASUS G series gaming notebook brings the authoritative performance of a full gaming PC to a compact form factor.
It's a high definition, high performance portable PC with no compromises — delivering the action full on.
The G series ships with the new NVIDIA GTX 460M with 1.5GB GDDR5, a mobile graphics engine adapted from Fermi technology. This provides a significant visual boost, opening new graphics capabilities with native DirectX11.

Surrounded by audio: features full EAX and THX audio support, delivering true surround immersion for dedicated gamers who want their in-game environments to come to life

Relentless computing: Much of this flows from Intel® Core™ i3/i5/i7 processors on board enabling smooth computing and blazing-fast gaming. The G series comes with one-click overclocking users can engage any time for extra performance in games and other applications.

Keeping it cool: The G series comes with a unique design that improves cooling and reduces noise, with large rear venting exhausts pushing both heat and noise away from users and ensuring cooler, better performing hardware and a quieter environment.

New dimensions: Powerful hardware creates a perfect platform for lifelike 3D* in games and movies. Crystal clear LCD panels and powerful graphics give this gaming notebook the ability to run 3D in 120 frames per second through NVIDIA 3D Vision, active shutter glasses and high speed embedded 3D emitters.

High definition Blu-ray movies run in 3D right on the notebook, while the bundled 3DTV Play software from NVIDIA projects 3D games, movies, even photos and streaming content to any compatible TV screen

via HDMI 1.4!
*Optional 3D performance package sold separately

Special Edition Bamboo Series Inspired by Nature, Designed for Style

The beauty of design: Elegant smoky brown bamboo exterior exudes an organic quality reminiscent of designer furniture. The beauty of performance: Super Hybrid Engine boosts CPU performance by 11% and extends battery life to 10.5 hours.
The beauty of sight and sound: LCD panel comes with a Zero Bright-Dot guarantee and Altec Lansing speakers deliver high fidelity audio.

The Beauty of Design
If you're both fashion and eco conscious, the U Series Bamboo Collection was made for you. Each notebook sports a smoky brown bamboo exterior that's not overly treated so as to retain its organic look , properties and tactility—creating a personal journey for person and machine as the wood matures and changes with time. The natural bamboo is juxtaposed with sleek, brushed aluminum interior surfaces and a seamless chiclet keyboard that is as comfortable to use as it is great to look at. These smart design decisions add up to a notebook that's very light, making it easy for you to become an ambassador of good taste and environmental responsibility.

The Beauty of Performance
U Series Bamboo Collection notebooks are as brainy as they are beautiful. ASUS' exclusive Super Hybrid Engine (SHE) monitors processing loads and delivers the exact amount of power suited to the task at hand. U Series Bamboo Collection notebooks also feature Syncables technology that enables effortless syncing with a plethora of devices, including desktop PCs, other notebooks, smartphones and digital cameras. This makes it easy to share files, backup data and access collections quickly. USB 3.0 is another new addition to the range, enabling data transfers that are up to ten times faster than USB 2.0. USB 3.0 is fully backward compatible, so you can be assured that all of your existing USB devices can still be used. And while transferring massive content and large files in mere seconds is a plus, USB 3.0 is also good for the environment, since it charges devices much faster than USB 2.0, requiring less power to do so.

The Beauty of Sight and Sound
The U Series Bamboo Collection is designed to deliver a stunning audio-visual experience. The vibrant and crisp LCD panel comes with a Zero Bright-Dot guarantee, providing peace of mind against dead pixels, while ASUS Splendid Video Intelligence Technology automatically tweaks colors, sharpness and other visual parameters to ensure the best experience regardless of the content being viewed. The superb visuals are matched by the notebook's pristine and accurate audio delivery, thanks to high fidelity SRS Premium Surround Sound.

EeePC VX6

Driven by Style, Wrapped in Prestige
Inspired by the Lamborghini Murcielago LP640 roadster, the ASUS-AUTOMOBILI Lamborghini Eee PC VX6 epitomizes elegance and power fused in perfect harmony. Clad in either shiny piano black or pearlescent white, this notebook PC contrasts and combines delicate refinement and style with sheer powerhouse performance.
VX6 delves into indulgent multimedia layering, enveloping users in audio by Bang & Olufsen ICEpower®, resulting in crystal clear, dynamic and powerful sound that's bound to sweep listeners off their feet and take them on a journey of adventure, whatever their fancy.

Delivering Multimedia Enjoyment in Droves
The VX6 is capable of smooth, crystal-clear playback of high definition videos in 1080p on its 12-inch 1366 x 768 HD widescreen display with the 16:9 display ratio.

Unprecedented Performance Meets Energy-Efficiency
The VX6 packs the Intel® Atom™ D525 dual core processor, as well as the next generation NVIDIA® ION™ discrete graphics processor with NVIDIA® Optimus™ technology to deliver a netbook with hard-hitting multimedia performance capabilities. NVIDIA® Optimus™ technology intelligently switches between integrated and discrete graphics to provide the optimum graphics solution required, thereby extending battery life in the process.

High Speed, Efficient Connectivity
The ASUS-AUTOMOBILI Lamborghini Eee PC VX6 comes with USB 3.0*, enabling you to transfer data at speeds up to 10 times** faster than current USB 2.0 connections. Also, the VX6 is capable of charging mobile phones via USB even when the Eee PC is switched off. The VX6's built-in 1.3M Pixels webcam ensures you can video chat with friends easily, while Wi-Fi 802.11n* and Bluetooth 3.0* ensures that you're well-connected even when you are on the road.

**Speeds quoted are component specification. Actual speeds may vary by configuration and devices used

A New Style of Speed

EeeTop, Your All-in-one PC

The Right One for Business
Experience all the benefits of a PC in a slim and stylish all-in-one package. EeeTop replaces your desktop computer, featuring quick and efficient start-ups and giving you plug-and-play capabilities. EeeTop's space-saving and user-centric design will clear up your workstation, freeing you from tangled, snaking cables, ensuring that your focus stays on work, and not the mess.

Get in Touch with the Best Business Solution on the Market Today
EeeTop can be an interactive point of contact for your customers, letting them access products and services instantaneously. EeeTop can also serve as information kiosks at airports or shopping malls, giving people vital information as well as interactive maps of the building. EeeTop can also be used as self-service ordering systems at restaurants, with patrons ordering their food by simply clicking on the dishes on the touchscreen interface. They can also be entertained with videos whilst waiting for their orders to arrive.

Bridge the Communication Gap with the EeeTop ET1610PT
With 802.11n WiFi support, EeeTop lets you enjoy faster surfing speeds and higher throughput to ensure that you stay connected to the business world. Its built-in 0.3M webcam, microphone and speaker lets you participate in conference calls via Skype. EeeTop ensures that you have clear and open lines of communications with the people that matter at all times.

Delivering a HD Visual Experience
The EeeTop is designed to give you and your customers a HD visual experience through its high definition widescreen display. Play videos and movies to keep your patrons entertained, or attract shoppers into your store with an electronic showcase of your products in the shop window.
